Warm Weather Increases The Need

When the weather warms up, so does our community's need for blood. Our blood supply has decreased 45%, leaving us with one of the lowest inventory levels since the COVID-19 pandemic began. Your commitment helps ensure local patients receive lifesaving care—because the need for blood doesn't take a summer break. Let's save more lives together.

- Book your next appointment at any of the locations listed below. For other options, click [HERE](#) to find a different donation location.
- Give a different blood donation based on your blood type.
- Ask your family and friends to make their appointment.
